Summary

- Proven ability to jump into new projects and learn new technologies quickly.
- Proven ability to quickly create prototypes (proof of concept prototyping).
- Proven track record of initiating and delivering successful projects and SaaS products.
- I use LAMP/LEMP stack, AngularJS 1(intermediate), Drupal (expert), Wordpress (intermediate), iOS/Android (beginner)

Recent Experience

Presshub.io – San Francisco, CA
Founder, June 2016 – Present

- Developed and launched content distribution API platform that lets anyone publish their content to Apple News, Facebook Instant Articles, Medium and other content platforms.
- Built server infrastructure with web-heads, load balancers (HAProxy) and database replications.

Chapter Three – San Francisco, CA
Senior Drupal Developer, June 2015 – Present

- One of the principal developer of the Apple News Drupal 7 module and Apple News PHP library.
- Integrated third-party systems (Built better integration with Click & Pledge in Drupal 8).
- One of the principal developer of Pinterest's Careers website, ETOnline.com, Military.com.
- Integrated SSO (SimpleSAMLphp with ADFS and PingOne, OAuth2) for both D7 and D8.
- Performed database migrations (Bricolage to Drupal, MsSQL to Drupal using Migrate module).
- Maintained and supported Drupal 7 and Drupal 8 sites (custom module development).

Urban Insight, Inc – Los Angeles, CA
Web Developer, September 2009 – June 2015

- Collaborated with client's developers to solve various project related problems.
- Performed internal semi-weekly code reviews of other developers to improve their code.
- Participated in internal kick-off project meetings and provided estimates.
- Presented project overviews, technical details to coworkers to enhance their skills.
- Developed video courses platform and custom e-commerce platform for Planetizen.

Freelance

- Implemented *AMP* and *Apple News* in *Wordpress*.
- Implemented SSO between *Magento* and *Drupal* for *DWELL*.
- Developed registration page for *Williams-Sonoma, Inc.*

Education

Tyumen State University – Tyumen, Russia
Master's Degree in Computer Science, 2003 – 2009

- Emphasis on System Engineering and Information Technologies.

Hobbies

- I am building a new startup and learning iOS and Android development to solve paper usage problem for both people and companies.
- When time permits I am preparing myself to become a pilot.
- Built several successful open source projects: Wordpress (**4000**+ sites using one of the plugins) and Drupal modules (one of them installed on over **6000**+ sites and I maintain a module that's installed on **17000**+ sites.).
- Oil painting and photography.

Numbers

Presshub.io, Inc

- Built content distribution platform and launched a company in **3** months. Currently I have a number of clients using it and the project supports itself.
- **50%** frontend development and **50%** backend development.

Chapter Three

- At Chapter Three, I maintained about **220** websites.
- Migrated over **70** websites from .NET system to Drupal 7.
- Wrote about **20** blog posts on a company website, including blog posts about Drupal 8.
- Over than **95%** of all projects launched on time.
- About **80%** of the time I am using PHP. I spend about **20%** of the time in frontend development.
-

Urban Insight, Inc.

- At Urban Insight, Inc, I launched and maintained around **50** websites.
- About **94%** of them build using Drupal. **1%** WordPress sites. **5%** of .NET projects.
- I maintained around **26%** of all those projects. In average I maintain **3-5** sites at a time.
- Around **80%** of my estimates are correct and features are implemented within the estimate or even in less time.
- Around **30%** of projects were migrated either from other CMS or older versions of Drupal to the most recent.
- My salary has grown over **175%** since I started working at the company.
- Custom e-commerce module I developed increased the number of sales on one of the sites by about **10%**.
- Over than **95%** of all projects launched on time.

Freelance

- I maintained around **10** sites on my spare time.
- **5** of them nationally recognized companies.
- **100%** of all projects delivered on time.
- *90% of my clients are hiring me for their new projects.*
